

FOR IMMEDIATE RELEASE: CBE hits the West Coast! June 1-June 12, 2006

- **Unsigned Artist of the Month - Keyboard Magazine, Jan '06**
- **Billboard World Song Contest award recipient 2005**
- **Top selling album at CD Baby - Sept 2005**

June 1st, New York City singer/songwriter/pianist, Cheryl B. Engelhardt and her full band will kick off their **West Coast Tour** in San Diego. Over the following twelve days, they will travel up the coast, concluding the tour in Seattle. The quartet will electrify audiences in a variety of venues, from the Key Club in Los Angeles to the Inn at Spanish Bay in Pebble Beach with their bold performances of original, award-winning songs.

Cheryl is a do-it-yourself phenomenon on the fast track to success. She's a familiar face in the New York City pop/rock and songwriter scene, and she routinely packs notable East Coast venues like the Knitting Factory (New York) and World Café Life (Philadelphia). You can also hear Cheryl's voice on commercials like the recent Cingular "Choir" spot.

Cheryl got her start in music behind a piano at age three. She continued to study music at Cornell University while diving into the a cappella scene, arranging and performing with several groups. Her musical past is evident in her recordings and performances: the vocal and band arrangements of her songs exude pure intellect. At her high-energy shows, Cheryl performs songs from her independently-released, self-produced full length rock album **Shoes Off And Run** in addition to showcasing her new material to be recorded this summer. Cheryl's jaw-dropping piano chops, her clear, listenable voice and her incredibly tight band are only three of many reasons to catch her show. She captivates, she relates, she entertains.
